

SMART GUARD

Protective Covers &
Anti-Vandal Devices

Protective Covers & Anti-Vandal Devices

Misuse of manual call points or pull stations is a very significant factor in false or nuisance alarms. VimpeX's Smart+ products assist in reducing malicious or accidental use of fire and security system components.

BS 5839-1:2017 - The British Standard for fire alarm installations recommends the use of manual call point covers in vulnerable areas to mitigate against false alarm. Our Smart+ products, when fitted, immediately start working to reduce the risk of false alarms.

SMART+GUARD

Designed to protect essential fire and security equipment and to reduce malicious or accidental false alarms.

The Smart+Guard is a tough polycarbonate hinged protective cover that can easily be installed over call points and emergency switches to provide protection from vandalism, accidental damage or misuse.

The red variant is commonly installed over fire alarm call points to protect the break glass from deliberate misuse or accidental damage. This reduces incidents of false fire alarms.

FEATURES

- Designed for ease of installation - can be fitted in minutes
- Optional battery powered 90 dB alarm, increasing security and protection
- Break seal also available to increase visible deterrent against misuse
- Available as flush mount or can be surface mounted with an 18 mm, 32 mm or 50 mm spacer

COLOURS AVAILABLE:

SMART+GUARD BACK BOX

The Smart+Guard Back Box is designed to give greater protection from rain and water ingress when used with the Smart+Guard flush mount products.

FEATURES

- Designed to enclose most EN 54-11 approved call points and emergency switches.
- Greater protection from water and dust
- 2 knockouts for 20 mm conduit
- Available in Red or Clear

SMART+GUARD 2

Sharing all of the features of the Smart+Guard, this product is designed to protect German style Call Points, Weatherproof Call Points and most US style Pull Stations.

FEATURES

- Designed for ease of installation - can be fitted in minutes
- Optional battery powered 90 dB alarm, increasing security and protection
- Break seal also available to increase visible deterrent against misuse
- Available in 5 colours: red, green, yellow, blue and white

SMART+GUARD ENVIRO

The Smart+Guard Enviro has been designed and engineered to provide protection for devices used in hostile environments.

Applications include offshore, the food and beverage industry, swimming pools, leisure centres, and underground installations.

FEATURES

- Added gaskets to provide greater protection from rain and water ingress
- Provided with all mounting accessories for effective installation
- Available with and without integrated siren

Break seal component for added security

COLOURS AVAILABLE:

SMART+CAGE

Smart+Cage protects essential Fire, Safety and Security equipment from theft, vandalism or accidental damage.

Constructed from PVC coated 4mm steel bar, these tough, waterproof cages provide security for a wide range of devices.

FEATURES

- Protects smoke detectors, clocks, fire alarm bells etc. from damage
- Thick gauge wiring for maximum strength and durability
- Certified for UK prison use
- Multiple size options available
