

The Genesis NP battery range leads the way in battery quality and reliability. Developed by world leading manufacturer EnerSys, the Genesis NP series is the culmination of more than ten decades of battery manufacturing experience.

Sizes available range from 1.2 Ah to 38 Ah, meaning that we can provide a battery for almost any Fire, Security or Industrial application.

A high energy density and leak proof construction guarantees excellent performance in either float or cyclic applications - thus making Genesis the most reliable and versatile maintenance free rechargeable sealed lead acid battery on the market.

FEATURES

- Guaranteed leak proof operation in any position except inverted
- Expected life span of 3 to 5 years in float service applications
- More than 1,000 discharge/recharge cycles depending on the average depth of discharge
- Recovery capabilities even after deep discharges
- Can be operated in a broad range of ambient temperatures
