Adaro Tecnología S.A. is a family Company located in the North of Spain in the mining region of Asturias, which manufactures safety portable lighting equipment such as Safety Torches ADALIT and Cap Lamps for Miners and Civil Works.

Since Adaro's foundation in 1901, the company's activity has always been linked to the development, designing and manufacturing of lighting equipment that could endure the hardest conditions of use within the hazardous environments.

Adaro is an international Company with clients all over the World, therefore, our ultimate challenge is the marketing of state-of-the-art products and presenting specific solutions for highly specialized and demanding clients incorporating the latest technology into its design. The constant search for the highest quality, the innovation and the excellence in service are the main principles that form the basis of Adaro policies, aiming for maximum client satisfaction as our goal.

### INNOVATING AND DEVELOPING FOR MORE THAN A CENTURY

# L-10

### Helmet torch with an integrated red LED beacon

The first rechargeable torch specifically designed for firefighting helmets, ADALIT L-10 is a powerful hands free lighting tool, and also a beacon to highlight the firefighter position.

Ultra light and with a design fully integrated in the intervention helmet, the torch ADALIT L-10 combines LED technology with the last generation li-ion battery to offer unique features and increase the firefighter safety and comfort.

- White high intensity LED for lighting
- Red high intensity LED flashes to highlight the user position (180° rotation)
- Rechargeable ultra light li-ion battery
- Indication of the light duration and the battery level
- Low battery warning
- Chargers for 1, 2, 3, 4, 5 or 40 torches

Lighting source: 135 lumens

**On/Off switch:** Push button switch of soft touch material, placed on the side to guarantee easy finding and pushing with gloves

### L-3000

### Professional safety torch with swivelling head

Adalit L.3000 torch is a high performance professional safety torch that combines high intensity LEDs, a revolutionary optic, a large digital display and an elegant design.

- 2 LEDs of 135 lumens each in a double optic with different light beams (spot and flood)
- LedEngine technology with step light system
- Booster function to illuminate long distances with greater penetrating light beam
- Two button switches of soft touch material, ergonomic and oversized in order to guarantee easy pushing
- 3 different burning intensities in order to select in every moment the remaining burning time
- Battery level indication in hours and minutes by means of a digital display
- Swivelling head with 3 positions
  0° | 45° | 90°
- Easy maintenance
- Stroboscopic function
- Red or yellow cone for signalling available
- Straight or right angle
- Chargers for 1, 2, 3 or 5 torches
